In re. Application of Thierry-Palmer, et al.

Art Unite 1651

USSN 10/617,254

Ex. Lankford

Filed July 11, 2003

TITLE: METHOD FOR IDENTIFYING SALT-SENSITIVE PERSONS

**SUPPLEMENTAL AMENDMENT AND RESPONSE TO NOTICE OF NON-COMPLAINT AMENDMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313

This is a supplement to the Responses filed January 21, 2009 and April 23, 2009. The claims are amended to address issues discussed during the interview (telephonic) of April 23, 2009 and the Notice of Non-compliant Amendment of July 8, 2009. While the Non-compliant Amendment of July 8 indicates an error in identifier at claim 10, the problem that needed addressing is an amendment to the claim wherein the appropriate underlining has been omitted. That omission is corrected.

First, the applicant would like to express thanks to Examiner Lankford for the interview accorded her representative. A listing of the claims as amended begins on the next page:
